

## Struggling to find quality, actionable data?

With over \$17B in AUM benchmarked to our indexes, VettaFi has a wide scope of indexing services available, including the ability to license index data and access unique datasets that can prove invaluable for new product launches, trading, and performance benchmarking.

### Featured index suite:

#### Alerian

Our energy infrastructure index was the first to capture the midstream and MLP space. The suite continues to expand and is widely tapped by the investment community.

#### ROBO Global

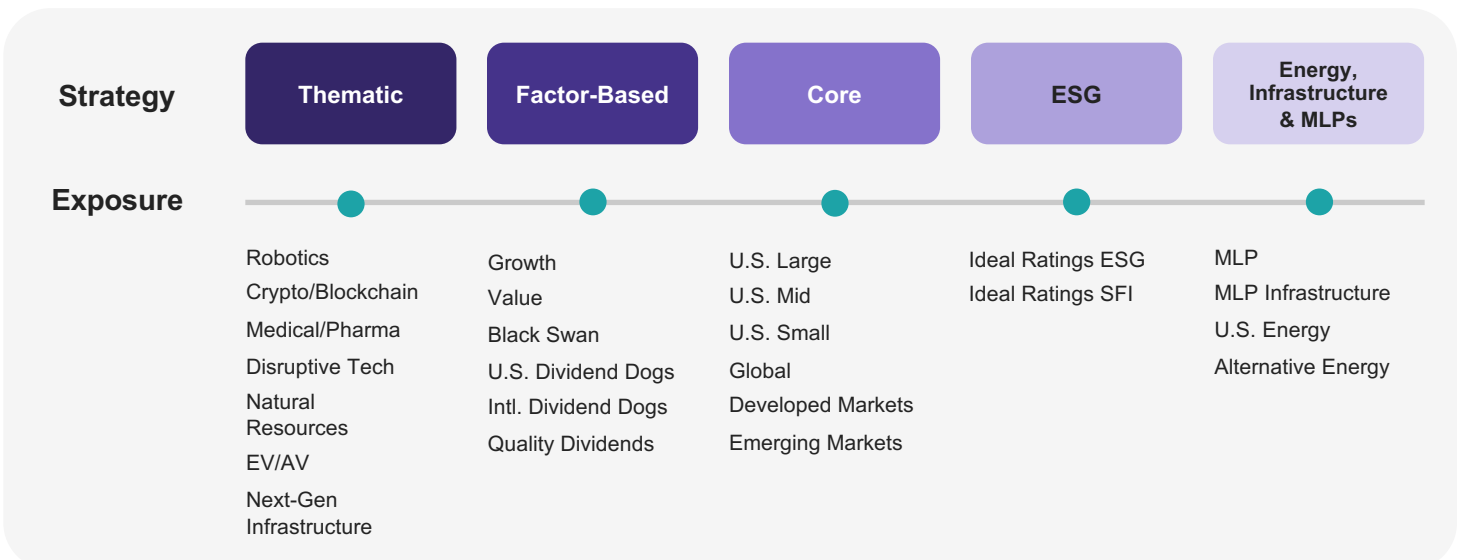

There is a revolution underway in robotics, artificial intelligence, and healthcare technology. Our ROBO Global Indexes are the first benchmark indexes that have tracked the technologies shaping the future.

#### U.S. Benchmark

Our U.S. Benchmark Indexes provide accurate coverage of publicly-listed stocks; over 98% of the U.S. market capitalization. We have an array of small, mid, and large cap.
